FUN FOR ALL AGES

I am 83 years old. I bought a Nintendo Entertainment System two years ago. I love Nintendo. I presently live at Rose Wood Retirement Home. We play at least five hours a day and we have a Nintendo Fun Club. We have six members in our club and over 43 games. We have completed Super Mario Bros., Metroid, Metal Gear, Kid Icarus, Double Dragon, and Super Mario Bros. 2. Our club has recently subscribed to Nintendo Power. The message our club wants to convey is that you're never too old to play the NES.

Ryan Maul and friends Bakersfield, CA

We agree! With a wide variety of action, adventure, and sports games, there's something for everyone on the NES.

VIDEO INCENTIVE

I just thought I'd write to tell you about your game system. I had not heard of the NES until Christmas of 1987. My children really wanted it. I talked with several other parents about the game. They had a set already. Their biggest complaint was that the kids didn't do their homework.

I was concerned over this so we made a rule. I promised my boys that I would buy it for them if they stay on the Honor Roll all year. Needless to say, Honor Roll it was! My eldest son then was promised another Game Pak if he got an extra great report card. He pulled all A's except for one B+. I thought that was fantastic.

We have enjoyed the game so much, we even took it to Yosemite this past summer.

My eldest boy was really shy around the other kids, but since we got the NES he has made a lot of new friends.

I really see this as a plus. Chores and whatever else get done a lot faster around the house now. I just ordered a Nintendo Power subscription. My five year old is working on his reading with the first issue. I am limiting game playing to one hour a day during the school year. They earn Game Paks by earning good grades. I can tell you, this was a great investment, especially with three boys. Thanks again.

Ruth Garcia Pomona, CA

Good thinking Ruth. While the NES does provide a lot of enjoyment, there are other things that must be done as well and the NES can be an incentive to do them.

FARAWAY PLACES

I teach piano at home and use a computer in my teaching. Software and synthesizers have become almost as much a part of the lessons as the piano. After the assigned lessons have been completed, the students are free to play any games they choose. One of their favorites is the NES.

My husband, Robert, was invited by the People to People Citizen's Ambassador Program to go to China with other Civil Highway and Bridge Engineers and meet with their counterparts over there. I went along on the trip with other spouses, and that's how we got this photo of an NES being played on the Great Wall!

Carol Stein Mount Prospect, IL

Terrific! Thanks, Carol.

TIP SOURCES

You have great hints for Nintendo games, but I was wondering how I can get hints for games designed for the NES by other companies?

Kevin Nick Erie, PA

You'll find that in Nintendo Power. We feature the hottest tips for games designed both by Nintendo, and by our assorted licensee companies. Also, our Game Play Counselors at (206) 885-7529 would love to help you with hints for all games made for
the NES. And, if we don’t know the answers to your toughest questions about licensee games, we’d be happy to let you know who to contact for more information, as many of the licensee companies also now have game counseling services.

THE ART OF PLAYING

I am a 15-year-old 9th grade student at St. Edward’s Upper School. I have a 13-year-old brother who attends St. Ed’s Middle School. We live about a mile from school. So, being under the legal age to drive, I take my custom made golf cart to school while my brother prefers to get a ride from Mom.

Terrific clay figures Trevor! We’d like to thank all of the artists that send us their interpretations of scenes and characters from NES games. There are a lot of talented Nintendo enthusiasts.

PROBLEM SOLVED

I am a high school English teacher, a newspaper columnist, and a father of an 11 year old who received an NES for Christmas. I want to compliment you on the quality of your equipment and games. He is totally absorbed and in love with this new toy, as is every child in the neighborhood who has taken up secondary residence on my living room floor.

As an educator I am concerned with video saturation. I’ve always been mildly approving of video games as long as the cash and time involvement was not too great. They are fun. I play them myself. However, I want my son to develop more than hand-eye coordination. I believe your company offers great potential for being accepted by parents as well as children because several of your game cartridges require so much more than simply quick reflexes. I’m referring specifically to The Legend of Zelda and Zelda II—The Adventure of Link. The level of critical thinking and problem solving required make these games an acceptable challenge for the son of a school teacher, and I am able to whole-heartedly defend you against the critics among my peers.

I am writing with a suggestion for the future that you expand your line of “thinking games” The buzz word “critical thinking” is a hot issue in the educational world. Conferences abound on this topic. Teachers and parents are stressing children’s deeper involvement in problem solving, strategic planning, and inductive and deductive logic. This could be one of Nintendo’s trends for the future.

Steve Gibbs
Benicia, CA

Thanks for your comments Steve. A growing number of NES games use problem solving, map making and other activities that require thought. This makes them both challenging and educational.

MARCH / APRIL 1989
In the last issue we followed our hero Link on his great quest. Many secrets were revealed in the first four palaces, but now is the time to go beyond!

Link now makes his way to the Fifth Palace, located on a storm battered island off the coast of Hyrule. Already his thoughts have turned to the hidden Sixth Palace, an item of great importance must first be found. As he continues, enemies become meaner and the palaces more puzzling. Link must always be prepared, and he raises his levels of Life and Magic at every opportunity.

Items Link must have

To gain Attack strength and Power Link must earn Experience Points in battle. But boosting his Life and Magic levels proves easier. On these maps you can see where Link discovers some helpful items. He knows it is a good idea to find these Power-Ups as soon as possible, as increased levels of Magic and Life will help him to defeat most enemies, which in turn will help him earn the critical Experience Points that he needs to build the strength of his sword and arm. Just as in his previous adventures, Link knows that half the battle is staying alive, and in time both Magic and Life will play a role in his success.

1-Up
1-Up Link doll allows him an extra play.

Fairy
Find one of these to restore Link's life.

Magic Container
The Jar adds 16 points to the Magic Meter, and fills it up, too.

Heart Container
Increases the Life Meter by one and refills the meter to its maximum.

Treasure Bag
Experience Points are stored thus—sometimes hidden or won in battle.

Bagu
Before Link can cross the river in Saria he must speak to Bagu.
Important Locations:

**Magic Jar**
The Magic Jar will be much easier to find if Link already has the candle from Parapa Palace, for it is hidden here in the dark cavern.

**Goddess Statue**
From a cave in the Tantari Desert, Link will get a statue of a goddess. With this he returns to the town of Ruto and speaks to the wise man who lives there. He teaches Link Jump Magic for having brought the precious statue back to its rightful home. The ability to leap high using Jump Magic will be vital to Link's quest.

**Heart Container**
Link makes sure to pick up this and other Heart Containers, as the extra Life he will gain from them is invaluable.

**Fairy**
In a patch of woods near the cave, Link will come upon a fairy who will restore his Life before he enters the dark cave.

**Treasure Bag**
In the cave north of the Midoros Swamp, Link finds a Treasure Bag worth 200 experience points.

**1-Up**
In a formation of stones near a blocked cave by the swamplands he discovers a small Link doll, which gives him a 1-Up.

**Bagu**
In this forest, teaming with pesky Megmats, Link comes upon a log cabin and its owner, Bagu.

**Fairy**
To fill up his Life Meter before venturing further, Link visits the Fairy near the bridge.

**King's Tomb**
In the middle of the graveyard is the King's Tomb. Find the Red Jar in the graveyard and take it.

**Red Jar**
With his Magic nearly spent, Link comes here to claim the Red Jar, which refills his Magic.
Off the coast of East Hyrule lies the island of the Fifth Palace. Inside Link encounters the Fiery Moa, and though later he will battle this creature, for now he decides to leave it alone. Somewhere ahead he will also walk through a wall as in The Legend of Zelda.

Before challenging the Palace, Link builds up his Attack and Magic to seven and adds Life by taking the path over the sea—going north then east—and finds a hidden Heart Container.

In the room where blocks rain down, Link can greatly increase his Experience Points. With each shot he can earn 50 or 200 points.

**Experience Wanted!!**

- He waits for all the blocks to fall.
- Makes a stairway up to the third block.
- Attacks the Moas that fly at him.
- Keeps attacking for the maximum points.

Ironknuckle seems to be guarding a blank wall, but Link presses on, undeterred.

When battling Ironknuckle, Link keeps close, using his Shield Magic for defense against the swords he throws.

Once Ironknuckle is defeated, he can pass through the solid wall at the back of the room.
How to beat Gooma!

Gooma, the giant troll who swings an iron spiked mace, protects the statue in which Link must place the fifth crystal. Avoiding his mace by jumping and dodging, Link then leaps in close and uses his sword when Gooma tires.

Link prepares for battle by using Shield and Jump Magic, then slays well back when Gooma swings the heavy mace.

Even Gooma cannot forever swing his weapon. When he rests, Link ducks in quickly and attacks low!

Link's advice: take the opportunities as they come; be patient; dart in and dodge back.

Using Reflect against the Fiery Moa.

What now?

Back in the Fourth Palace he learned to use Reflect against wizards. Here it might be a waste of time.

Beyond Ironknuckle and the walkthrough wall, he will find keys and an ancient flute, which is the prize of this island palace. With the flute, Link can reach the southeast of Hyrule and Old Kasuto.
The home of Barba the dragon extends seven levels deep with many secrets and pits to trap the unwary. In places, Link must use the Fairy Magic to continue, and throughout the maze he must battle enemies with his other magical options. It is vital that he keeps his Magic levels filled, as he must be ready at every moment to use Reflect or Jump or Shield. Studying the map below, he plans a route to Barba. He will also make notes as he passes through the maze on where the pits are located, because a hole may turn out to be bottomless if he is not careful. Since Link has built up his Attack, Life and Magic back in palace number five, he is ready to begin.

Use Magic!!

The key to success is the wise use of magic.

Get the Magic Key!

Since he cannot find any keys in this palace, Link must first get the Magic Key. Search for it in Kasuto. With the Magic Key, he can proceed to the Sixth Palace and open up its secrets.
The Battle with Barba!

In Barba's chamber Link comes to three fiery pools from which the dragon rises in flame breathing horror. He prepares for the battle by using Jump, Shield, and Reflect, then stands on the middle column. As soon as Barba appears, Link attacks, then dodges his flames and attacks again when the dragon dives back into the pool.

By standing on the middle column Link is positioned perfectly to attack Barba when he first appears.

With the help of Jump Magic Link can dodge Barba's blistering breath and counter-attack. Timing is critical.

The Pit!

Not far away from the entrance, Link will find an endless pit that passes through four levels of the maze. He will keep falling over and over through those four rooms unless he sails to the right where in the third room he can land on a ledge and duck through a door.

The Cross will reveal hidden foes to Link.
Nine steps to the Great Palace

Before entering the Great Palace, Link must return each of the six Crystals to the statues in the six palaces. He also must increase all his levels to eight. Here are nine crucial steps that prepare Link for the end.

Step 1:
On the west end of Maze Island, before going to the palace, he searches for a Magic Container to boost his Magic Meter.

Step 2:
On a beach to the east of Darunia, towards Maze Island, Link will find a 1-Up, which increases his life by one.

Step 3:
Close to the Fourth Palace on Maze Island a kidnapped child is being held captive. If he finds the child and returns him, Link will receive a great treasure.

Step 4:
Northeast of the Fifth Palace Link can find a Heart Container in the sea. With his Magic Boots he walks to it, following a secret, watery path.

Step 5:
A river devil blocks the path to the southeast of Hyrule. To get past, Link will need the flute, which can be found inside the Fifth Palace.

Step 6:
In the dangerous swamps north of Old Kasuto Link looks for a 1-Up. Once he finds it, though, he goes on knowing that he can come back for it later.

Step 7:
East of Old Kasuto, on the coast, Link can pick up another Heart Container and boost his Life Meter. By this time his Life levels are completely full.

Step 8:
Northeast of Old Kasuto lies a cavern that leads to the coast. Pass through it, then go into the forest and search for the hidden village of New Kasuto.

Step 9:
In the village of New Kasuto a Magic Container boosts Link's Magic level as high as it will get. Here, also, he will find the Magic Key.

On to the Great Palace...

- Step 1: The path to Ganon's lair is guarded by many determined foes. Getting through this section can be a trial.
- Step 2: Here on the path Link meets enemies who attack him. He must take care not to tumble into the lake.
- Step 3: With a powerful Spell you can change a Moa into a Boto, making it all the easier to finish them off.
- Step 4: Coming to a cave, you will find the Lowder and Acheman monsters which you defeat using your sword and Fire Magic.
- Step 5: As in Step 2, this area is difficult to pass without using the Magic spells.
- Step 6: Once through the last cave, Link will arrive at the Great Palace and the final step of his long quest.
Nester travelled to Las Vegas for his first Consumer Electronics Show (C.E.S.). Over 100,000 people attend the show, looking for all the latest on what’s new in TV’s, VCR’s, stereo’s and best of all, video games. The Nintendo booth showcased Nintendo’s own games, as well as played host to its 35 licensees and their titles. We knew he wouldn’t have a problem finding the booth, it was the biggest one at the show.

There are so many people. I don’t know where to start!

Finally found the booth. It’s bigger than a football field. How am I going to cover all of it in only 4 days?

Nintendo Power! Hello everyone!

This reporting stuff is hard work.

MARCH / APRIL 1989 17
On Day 4
(Tuesday, January, 10)

Finally I get to spend some time playing. Now you’ll get the real inside story from someone who’s there.

I liked Wizards & Warriors and I love this sequel—Ironsword. They put in greater depth, graphics, role playing and a password feature.

Who Saved Roger Rabbit? Save Toontown yourself. They’ve got stuff stashed everywhere. There’s a car you can drive and you have to tell jokes to keep Roger out of hot water. Looks great!

Mega Man 2
This game is incredible. Graphics are huge and detailed. A major challenge, but the new style password helps.

Remember Uncle Fester from the Addams Family? Sunsoft sends him on a bizarre adventure with really radical background music. I like it.

L.J.N.
I want to share this exciting news. Plans are in the works for Back to the Future, Beetlejuice, Pictionary, and Punisher! I love it!!

Broderbund
U-Force is the future. It’s a controller that senses the movements of your hands without you ever touching it. It doesn’t work with all games but imagine playing Punch-Out!! with just your fists. Due out this fall, should be priced around $75.

T.M.N.T.
Worth the wait, this game’s a lot of fun. Take it from me, or read the preview in this issue.

Lucky kid. Reed got to demonstrate U-Force for 4 days!
Move over, Michael Jackson. This glove will make you a video superstar. Called the Power Glove, this controller by Mattel should be out by Christmas. It works when you move your hand in front of the screen, flexing your fingers, or by pressing the control buttons on your wrist. It's super high-tech, like something out of a sci-fi movie. Technically, it works with ultrasound. The demo games included a handball game (looked easy) and a tank commander game. The hand on the screen followed every move you made—flipping switches, pressing buttons, firing the cannon. Mattel says it should be under $90. This is amazing! Part Player, Part Machine, you've got it all.

Ryu is the ultimate Ninja. He's out to avenge his father's death and save Earth at any cost. He has a purpose, he has skill, and now he has you to help him.

**How you play**

Ninja Gaiden is more than a game. It's also a tale told in Cinema Display scenes. But it's action-packed, too. During the Action Scenes you defeat enemies and find weapons. So the more Action you clear the more story you'll see.

**Ninja Ways & Means**

For thousands of years Ninjas like Ryu have practiced the arts of breaking and entering. Now you must learn these skills.

- **Wall-Spring Jump**
  Push B, and away from the wall on the Control Pad, and Ryu springs off the wall and attacks.

- **Wall Climb**
  Use Wall-Springs back and forth to climb chimney spaces formed between walls and columns.

- **Select Options**
  Each time you choose a new Option it will replace the previous Option. Take the best Option for the area.

- **Vertical Climb**
  Push the Control Pad away from the wall, jump, then push back toward the wall quickly.

**The Right Stuff**

In each Action area you will find hidden items inside streetlights and torches. Hit the lamp with the sword and an item will appear. Sometimes it is an Option and at other times a Power Boost or Bonus.

- **Fire Wheel**
  For a limited time the Fire Wheel revolves around Ryu, burning all his enemies.

- **Power Boost**
  Ryu needs to gain power so he can use the Options. The Red Boost = 10 and the Blue = 5

- **Bonus Points**
  Score big with the Red Bonus worth 1000 points, or the Blue, worth 500 points.

- **1-Up**
  Take this little Ninja and Ryu will gain one extra Life.

- **Time Freeze**
  Once you claim this hourglass, all enemies will freeze for five seconds.

- **Regain Physical Strength**
  This item restores up to six damage units on Ryu's Life Meter if he has been wounded.
Ninja Options

To use one of these super Ninja weapons, Ryu must expend Power points. The Ninja Star uses three points. All others use five points.

The Ninja Throwing Star
Ryu never misses a throw straight at the enemy if he is within range.

The Ninja Windmill Throwing Star
Like a boomerang, the Windmill Star lashes out then returns to the thrower.

Jump and Slash Ninja Fighting
A secret of the old Ninja schools. Spin through the air and your sword is like a buzz saw.

The Art of the Fire Wheel
Ryu, like all Ninjas, is a master of weapons. Perhaps this is the best. A hot fistful of flaming rockets shoots upwards and diagonally at the enemy.

Climb atop the sign and hop from one sign to the next to avoid enemies. Ninjas do not fight unless they must.

The Fire Wheel gives Ryu "invincibility", but the cost is high as all his Power will be used up in a very short time.

Prelude

Ryu's father, like his father before him, was a master Ninja, too. One night in the glow of a full moon he met an evil Ninja who had a secret purpose and a sword as sharp as his wits. In anger and loathing the two master warriors rushed at each other across a sea of grass like rams determined to butt heads. At the height of the leap their swords clashed with a flash of lightning and a clap of thunder. Ryu's father fell, smitten by the enemy Ninja who escaped into the night. The next morning, Ryu Hayabusa learned of the mysterious duel, and he found a letter, which read . . .
Five Wall-Spring Jumps in a row will take Ryu to the top and keep him on the move.

Leap over this man and whirl around as soon as you land. He won’t stand a chance against such tactics.

Time Freeze Bonus (Blue) Power Boost (Blue) Ninja Star (Windmill) Power Boost (Blue)

Ninja’s don’t hack and slash; they use skill and finesse. A stroke too close or timed poorly will not fall.

**Area 2**

Ducking into Jay’s Bar to escape the enemies converging outside, Ryu runs into the Barbarian, who not only owns the tavern, but has been waiting for this very meeting with Ryu—a meeting with a dark purpose. Luckily, the Barbarian is not as strong as he looks. Attack low, avoiding his ax, and you can’t fail to win.

Keep your head when he comes at you with his axe and crouch low. Then use your sword and be patient.

With service like this don’t bother to leave a tip. Once you have won, move on to the next Act.

**Jay’s Bar**

Since the Barbarian waits patiently in the bar, you must defeat him here on his own turf or return to the start of the game. Try to avoid injury before arriving at Jay’s.

**Area Guard**

Barbarian

Alias—the South American Executioner. He is from the dark reaches of the Amazon and leader of the “Malice Four.” His mission is to stop Ryu.

“My dear Ryu: I am about to set out on a duel. If I do not return, take the Dragon Sword, the one kept by the Hayabusa clan from generation to generation, and go to the U.S. There meet my old friend, Walter Smith... Ryu, be brave!” So Ryu was given the mission by a letter which seemed to bring a message from beyond the realm of the living, and Ryu vowed to do whatever was necessary to right the wrong. In the Ninja code this meant he must bring justice to the guilty or chase them to the ends of the Earth! But in his heart he was worried, for not only didn’t he know the face or name of the evil Ninja, he didn’t even know why the man had done such a terrible thing. Was it for money? Power? Or something else that no one could guess...?

I’ll avenge the death of my father at any cost!!!
Act 2
The Escape
Area 1 Outpost

Start

In the first area of Act 2, the hidden items will be found in the holes that hang on the walls.

Here’s a spot to try Jump & Slash, but to do so make sure you have some Power.

The boxer won’t let up if you let him get the better of you. Stay low and wait ‘til he’s near.

Jumping is a key skill of the Ninja arts. But if you fall in the gap, you lose your life.

If you are here with no Ninja Option, it will be really hard work.

For a quick escape, use the invincible Firewheel, but don’t forget it has a time limit.

Hidden items in Act 2 are concealed inside these swinging rings. This will provide you with hope during a dangerous journey.

When the action starts getting too hot, push forward and attack each enemy quickly.

Here is a perfect spot to use the Art of the Firewheel. It should take you to the end of the area.

Area 3

To
After defeating the Barbarian, Ryu discovers that a mysterious woman is there. "You have nothing to worry about anymore. You may go now," says Ryu. "Yes, but... I must do something before that," she answers, pulling out a gun. Then a shot rings out, and Ryu knows only the dark void of unconsciousness.

Waking up, Ryu finds himself in a prison cell. But the mystery woman appears and approaches him. "Run away with this, please!" She pushes a statue toward him, urging him to take it. Still groggy and confused from the long ordeal, Ryu takes the statue and finds his way out of the cell.

Knowing nothing of his whereabouts, he sets off to escape from the Outpost.
Act 2 Area 3 — Amura’s Altar

Bomberhead, the master of Act 2, waylays the unwaried with his sickle and chain. Although he is as mean as a South Bronx sewer rat, he’s not too tough to beat if you use all your Ninja tricks.

If you have a rapid fire equipped controller, Use it Now! Quickly slice your way to Act 3.

Still as confused as ever, Ryu sets out to meet Walter Smith, his father’s friend and a well respected archeologist. But at their meeting, Smith does not recognize the serious and determined young man. “Who are you?” Smith asks. Then in a rush Ryu begins to tell Dr. Smith about his trials. He tells Smith about his dad’s untimely end and the letter that he found. He describes how he has fought his way passed leopards, boxers, Ninja soldiers, a barbarian and a New York street-

Walter Smith, the good American archeologist, reveals the secrets of the Demon Statues to Ryu.

lord and how he met a mysterious nameless woman who shot him then gave him a statue. At this point Smith tells Ryu about the Demon Statues.
Smith goes on to say that the two statues were once used by Shinobi, Ryu's ancient Ninja ancestor. Using the same sword that Ryu carries, Shinobi defeated a demon who owned the statues. Sealed inside each statue is a magical force; one holds the spirit of Light and the other holds the Shadow spirit. Ryu already has the Shadow Statue, for it was given to him by the strange woman in Act 2. Finally he begins to understand some of what has been happening. His father's death was somehow linked to the fate of the statues, and so too is Ryu's destiny. But no sooner does Smith finish his tale than a stranger appears and steals the Statue of Shadow.
**Act 3 Area 2 = Lizard Mountains**

**Start**

Leap quickly to the upper level and attack the soldier before he can fire the bazooka.

Attack quickly and keep moving. From the column leap to the ledge on the right in one motion.

Bonus (Blue)

In Act 3-Area 2, the Hidden Items are inside white-headed Eagles. Always try to collect as much as you can.

**What is a Ninja?**

The origins of the Ninja are lost in the mists of time. Some say these Asian arts were first developed by Chinese priests who lived in hiding from a despotic emperor. But others believe the skills of stealth were used first in Japan more than 500 years ago by Samurai warriors whose lives were dedicated to the Shogun. The secret arts of the Ninja made it possible for the Shogun to defeat his many enemies and stay in power.

**The Ninja Arsenal**

- **Ninja Sword**
  Not all of the Ninjas' weapons are used in this game. Ryu must finish his quest without the aid of the Rope Ladder or the Water Spider that are part of Ninja tradition.

- **Throwing Star**
  The Ninja blade is forged of lightweight but strong alloys and is more durable than other swords.

- **Makibishi**
  The most basic Ninja weapon. Some are shaped like a cross, some have many points.

- **Sickle and Chain**
  The chain wraps up the enemy's sword and the sickle is used in close combat.
Area 3 — Yomi's Cave

At the end of Act 3 Ryu encounters Bashaquer, a Chinese master form-changer and Ninja who was once expelled from an organization called the Five Ranges of Doom for being too cruel. He has since joined Jaqio and the Malice Four. His frightening attack technique includes terrible leaps and filling the room with bullets.

Bashaquer was the agent who stole the Shadow Statue from Ryu earlier. He must be defeated, at any cost, but he is not as easy as his predecessors.

Block the bullets with your sword and stay near the spot shown above. Be patient and don’t let up.

By dashing in to attack Bashaquer each time he jumps near you will defeat him.

Formerly a member of the F.R.O.D. (Five Ranges of Doom), Bashaquer joined the Malice Four on the insistence of Jaquio.

Many Ninja Arts

The true Ninja uses his arts sparingly, for there are times and places where other simpler methods may be more effective. Shown here are just a few of their secret techniques.

Scroll

A long sheet of paper upon which is writing. It is the manual all Ninjas study in the pursuit of their special arts. Ninja schools even keep false scrolls in their libraries to confuse the enemy.

Art of Flame Throwing

In addition to protective rings of fire, truly great Ninjas can set mountains alight to escape.

Konoha Gakure

The art of concealment. A Ninja stirs up a whirlwind of leaves in which to hide.

Art of Suiton

The art of hiding beneath the surface of lakes or streams while breathing through a hollow reed.

Art of Doton

This is the Ninja’s method of hiding under the ground to spy on his enemies.
Act 4

A Trap

Ryu finds himself in the ruins of a jungle shrine deep in the uncharted jungle of the Amazon. Here he is beset by the minions of Jaquio, but sensing that the end is not so far away he valiantly pushes forward against the assault.

Act 5

Mortal Combat

Caught by Jaquio, Ryu plunges into the dungeon depths through a trap door. He must return quickly.

Act 6

The Fall of the Demon

Across the Death Bridge Ryu enters the inner shrine only to find an unexpected foe waiting within.

Act 4 Prologue

Once Ryu finds the statue for the second time, he returns only to find that Dr. Smith has been killed by Jaquio's men. At that moment, Ryu is surprised by more strangers who appear suddenly and command, "Come with us."

The strangers take Ryu to meet Mr. Foster of the CIA. There he learns of the sad circumstances of Dr. Smith's untimely demise. Then Foster comes to the point of their meeting and he asks Ryu to penetrate the South American stronghold of Jaquio who now has the other statue, and to bring it back—an offer no Ninja could refuse. And so Ryu continues his quest.
Help guide young Master Higgins on his grand adventure to find Princess Leilani.

The Evil Witch Doctor has kidnapped the Princess and is holding her somewhere on Adventure Island. It's up to Master Higgins to rescue her. Plenty of challenges await him as he races across the island and maneuvers through a series of traps and obstacles in a desperate attempt to foil the Evil Witch Doctor's demented plan. Will Master Higgins be able to find Leilani in time? It's all up to you.

Getting hit's not the only way to lose energy, so keep moving.

When you run into an enemy.

When you fall off a cliff or platform.

When you run out of energy.

Oh No!

---

**Items**

**Stone Axe.**
This is the easiest weapon for Master Higgins to find. Throw it by pressing the B button.

**Skateboard**
Master Higgins will be able to move much faster on the skateboard, but will be unable to stop.

**Fireball**
This weapon is much stronger than the Stone Axe, as it can destroy rolling boulders and rocks on the path.

**Honey Girl**
When Honey Girl flies next to Master Higgins for a few seconds he is temporarily invincible.

**Flower**
This item will double the amount of energy Master Higgins receives from energy fruits.

**Milk**
Milk is very good for growing young boys like Master Higgins. Find it and fill up his energy level.

**Eggplant**
Master Higgins should try and avoid any Eggplants he finds, as they will eat up all of his energy.
The adventure begins in a remote forest on the far side of Adventure Island. Master Higgins is very confident that he will be able to rescue the Princess easily, but he will soon learn that this island is not the kind of vacation spot he is used to.

I can jump higher when I get a running start.

I found a Stone Axe in the first egg. This Axe works great against Snell.

Now we start up the hill.

Fireballs will break boulders.

No weapon will destroy this fire, so be sure to jump over it.

A Stone Axe will bounce right off these, so you'll have to jump over them.

Honey Girl's appearance will help you get past these cobras.

Let's motor!!

Find a Skateboard in this Egg.

There is an egg hidden here.
Darn! I missed the egg!

Whoo! I almost fell off!

Get the egg hidden on this edge.

If you trip up, you'll land on Snel.

Did you forget this special egg?

All right! I made it through Round 1! Hold on Leilani, here I come!

If an enemy hits me while I'm on the skateboard, I'll lose the board, but I won't get hurt.

At the end of each of the eight Areas, Master Higgins will have to defeat the Big Kahuna of that Area to move on.

The Boss of Area 1

After finishing all 8 stages, you must defeat the dreaded King Quiller.

Ha! You have to hit me twice.
We'll get back to maps of the rest of Area 1 on the next page, but here's a quick look at some of the action from Area 2.

**Area 2**

**Round 1**

This time you start on the beach.

- This section is a lot like Area 1, Round 4.
- Some of these clouds will drop out from under you.
- Don't panic! You're almost there.

You won't want to try and rush through this Area. Let the enemies pass by, and then go on.

**Round 2**

There are a lot of Cobras in this cave, and they'll spit firesnakes at you if you don't defeat them before they get a chance to spit.

**Round 3**

This cave is very tricky because of the moving platforms. Don't let them fool you into jumping too soon.

**Round 4**

Round 4 is in one of Adventure Island's many forests. This Round will be very difficult if Master Higgins does not have a weapon.

**The Boss of Area 2**

Well, two Areas down and only six to go. I hope the Princess will be all right. This may take me awhile.

If you can beat this Boss, you'll get to Area 3.

34 NINTENDO POWER
Area 1

Now let's get back to Area 1 and take a look at the maps of Rounds 2 through 4.

Key to the symbols

- Danger Zone: Places where it is easy to fall off cliffs or ledges.
- Hidden eggs.

Round 2

- Jump from Island to Island.
- Watch out! The cloud moves up and down.
- Another up and down cloud.
- This is the third up and down cloud so far.

Round 3

- Enter the Evil Cave. If you dare.
- Don't get caught in the Seesaw Stage!
- Find the Key and the Demon Statue here.
- Beware of the Eggman in this Egg.

Round 4

- Journey deep into the Black Forest.
- Use the Spyro Axe against the Cranes.
- Jump quickly to avoid the fire darts.
- Proceed slowly or you may get burned.

Battle the Area 1 Boss!

Even though he is only the first boss, he can be more than a match for an inexperienced Master Higgins.

The Round 4 map is sure to bring a challenge.

Go get him!

Keep your distance and wait for a chance.

Jump as high as you can and aim for his head.

Next on to Area 2
Starting with this issue, our new Preview column will provide you with a look at what we think are the best games to come for the NES. You'll get a glimpse of them here, and a full feature review in an upcoming issue.

STRIDER

Capcom's Strider is an exciting game of deception and intrigue within the confines of a powerful secret organization. Your friends and foes are often undefined as you move through various different areas attempting to uncover the fiendish plot of the "Zain Project." As Hiryu, the strongest and only "C" Class Strider in the force, you will attempt to rescue your lost friend Kain, and save the world from an awesome computer named "Zain." You start onboard the Blue Dragon, your starbase, floating silently above the Earth and receive a message that your best friend Kain has been captured by an unknown enemy. With little to go on except bravery, determination and the incredible Cipher, the weapon of the Striders, you begin the seemingly impossible task of searching an entire world for one man. Join Hiryu, in his single-handed mission to stop the only force that can threaten even the Striders! Coming soon for your NES.
The Blue Dragon floats invisibly above the atmosphere!

High above the Earth in the security of your spaceship, Blue Dragon, the agents of Strider watch with silent all-seeing eyes. From here, agents are presented with three options: Transfer, Analyze, and Password. Transfer sends an agent down to Earth. Analyze examines data collected on Earth, and Password gives you a password to continue your game. Once it's released, this game will provide plenty of excitement.

**Find the missing data files!**

The well-guarded Data Files are scattered about and hidden all over Earth. You'll need to find a Data Disk in Kazakh to be able to teleport to other sections of the world. There may be more than one Data Disk per area so you may have to double check for a Data Disk you miss.

**Watch out for keys!**

As you move about the bases, look for keys. You will come across many doors that you can't open unless you have the proper key. You may need move back to previous areas to try new keys and see if they open doors that you could not open before. Watch for more tips in later issues.

**ITEMS**

- **H Capsule**: You have two types of capsules. The large one lets you recover ten Hit points, the small one only one point.

- **E Capsule**: E is for Energy. There are large and small sizes worth ten and one, respectively. You need them to perform certain tricks.

- **Aqua Boots**: Somewhere in Egypt you'll find these boots that will give you the power to walk on water.

- **Attack Boots**: With these boots you'll be able to use a sliding attack through narrow spaces. Very handy!

- **Boots**: The boots are all colored differently. Magnets are red, Aquas are blue, and the Attack Boots yellow. They function automatically whenever you have them.

- **Magnet Boots**: The bottom of these boots contain powerful magnets that allow you to scale iron walls and ceilings!
You have four different defensive maneuvers!

Besides his weapon and his normal ability to leap, Ninya has the ability to use four different moves to pass a variety of different obstacles. You must examine each to determine which of the moves will work best in the various situations you encounter. Most of these maneuvers will require practice and patience as they often use complicated Control Pad directions. Brush up on your skills so you'll be ready when this game is released.

**Plasma Bullets**

Hold Up for five seconds, and you can fire Plasma Bullets!

**Slide in**

This skill allows you to slide through small spaces.

**Lean back and Jump**

Jump to the wall, then point the opposite way and jump again.

**Accelerating Jump**

Leap while running down a slope. You will leap further.

The first area you go to is Kazakh. This area is a maze of slanting passageways, vertical transport tubes, and sword wielding henchmen who constantly attack you. Movement through this area is often tricky providing an interesting challenge for even an advanced player.

Defeat an enemy overhead with an upward thrust!

You can defeat an enemy that is overhead by jumping up and holding Up on the Control Pad to keep the Cipher over your head.

If you find a Data Disk, head back to the Dragon!

Back on Blue Dragon you can use the ship's massive computers to analyze the Data Disks. There's no telling what may be on the disks.

Where's the Commander?

Several men are hidden around Kazakh. Stationary characters will often have information for you. It's very interesting to discover who is your friend and who's your foe!

Next, on to the sands of Egypt?
THIS IS COBRA TRIANGLE!

We give you this preview look at an upcoming Nintendo speedboat mission. Check it out, as we pilot the awesome, sleek Cobra Triangle through treacherous waters.

Which path will you take?
As you see by the sneak-preview map at right, the river splits in two directions. The path you choose will determine the order in which you will progress.

There are no enemies here. Just "Collect Pods" and Power Up

To "Dispose of Mines," tow each mine to the disposal site.

BONUS STAGE

The missiles you receive for Powering Up will get you some high scores by firing them at the targets on show during the Bonus Stage.

A variety of challenges await at each stage.

STAGE 1

START

TM Nintendo of America Inc. © 1988 Rare Ltd.
You'll control the Cobra Triangle just like you handled the R.C. Pro-Am racing car. You will be able to obtain up to five Power-Up Options from which to choose. Determine the Power-Up Option you desire and press the Select Button when that Option flashes. These special abilities will come in handy when facing hazardous waters, perilous obstacles, and fast and fierce enemies.

The hyper-speed boat with the R.C. feel!

**Use the Power-up Options!**

- TURBO: Increases your acceleration.
- AIM: Lets you fire more bullets.
- SPEED: Increases your top speed.
- MISSILE: Better than bullets!
- FORCE: Gives you temporary invincibility.

**Finish**
There's crack shoot'n, four-wheeling, mud-flying, fist-fighting action packed into Konami's soon-to-be-released-game, The Adventures of Bayou Billy, and this one's as steamy as the swampland itself!
The bulk of Bayou Billy is played in these hand-to-hand stages. The action never stops!

The fist fights and scrapes in the swamps are displayed with the horizontal scrolling method, often providing surprises at the edges of the screen.

Bayou Billy offers you a choice between the Zapper or the Control Pad at the beginning of the game.

The bayou has been Billy's home for some time now, but that still hasn't taken the danger out of living there. Gators and quicksand, plus the maze of the swamps themselves provide a great deal of natural peril. Now that the smugglers have taken Annabelle, there's sure to be a boat load or two of bushwackin' tough guys rustling amongst the cattails for sure! Billy will have to move very carefully as trouble will strike as fast as an angry anaconda for anyone who doesn't stay on guard here.
Here's a look at scenic Bourbon St. which sets the backdrop for Stage 6. Who knows what danger may be lurking?

STAGE 6

Watch out for that guy, he's no tourist! The Boss has hidden some of his men all over town just waiting to see if Billy will make it. Since Billy is the kind of guy who never gives up, it's certain he will. These thugs appear from all kinds of places, left, right, even straight out of the blue! Watch for some good tips here in an upcoming issue.

STAGE 8

If you make it this far you'll be doing pretty good. Boss Gordon's place is guarded like Fort Knox! Better use your wits!

Figuring out how to get through all of this may take some doing. Still good old persistence and a few handy tips from an upcoming issue of NP will have you knocking them down like bowling pins!

Could this be the end for Billy? We'll have to wait for the game and see....

With skill and some practice, you'll make it into Gordon's Estate. What surprises await? If you keep moving, you'll certainly find out!
In this stage, Billy's walked right into an ambush. You play this scene from Billy's vantage point and get the choice of using the Zapper or the Control Pad to test your sharpshooting skills to the limit.

The lead is really flying around here!
The screen will provide opportunities to gain extra ammunition and some medical attention if you need it. But you have to shoot it to get it.

Keep your eyes peeled for a 1-Up to get an extra man.
You'll find the action in these stages intense!
The sound of whirling rotors warns you of a nearing helicopter?

Men start popping out of the chopper like a swarm of locusts! Look out!

Oh no! Another ambush outside of Gordon's Estate, get ready!
There are two lightning fast thugs guarding the gate to the Estate. You'll have to be fast to beat them. We'll give you more help in the area later.

A great feature of Bayou Billy is that you can choose to play with or without the Zapper!
You'll need to find gas somewhere. When you find a gas can on the road, run over it and it will fill you up and repair some of the damage to your vehicle. Will Billy save Annabell? It's really up to you!
We'll be coming to life soon in a game for your NES.

**STORY**

This game is based on the characters created in Eastman and Laird's hit comic book of the same name, and will feature all of the fast action and crazy ninja tactics that you love in the comic book.
The Turtles use the weapons they’re famous for:

**LEONARDO**
No reptile wields a katana like Leonardo. Disarm those enemies seemingly just out of reach.

**RAPHAEL**
The sai specialist. The sai attack field is limited, but Raphael’s speed is unmatched.

**MICHAELANGELO**
He is an expert with the nunchaku, an effective weapon against enemies in lower locations.

**DONATELLO**
Don’s powerful bo is inherently slower, but causes more damage than any other weapon.

---

You’ll find two types of maps.
When you are outside, you can see the Turtles from a birds-eye view and the screen scrolls both horizontally and vertically. In the Action Scenes you see the Turtles from a side view, and the screen scrolls horizontally. One of the best things about this game is the superb play control in the Action Scenes and the super-sharp graphics.

---

**ITEMS**

**BOOMERANG**
This weapon is very effective. Be sure to catch it when it comes back.

**STAR**
The Chinese Throwing Star is capable of going through several enemies in a row.

**TRIPLE STARS**
This weapon allows you to throw three stars and can damage more than one enemy at a time.

**SCROLL**
Use this magic scroll to send a shock wave through your enemies.

---

Pizza: The miracle food.
You know that Turtles love pizza—especially T.M.N.T. In fact, the Turtles featured in the comic book hardly eat anything else. Look for pizza in the Action Scenes to keep your energy levels up.
MAP OF AREA 1

Here's a quick look at the first stage. Be sure to save these maps and look for more detailed information on the Turtles and their exploits in future issues of Nintendo Power.

You'll have to use all four Turtles.

When a Turtle is injured, switch to a healthier team member. This way you won't have to start over at the beginning of the stage every time one of the Turtles is captured. Also, be sure to feed any pizza you find and feed it to the weaker Turtles.

Get down!
The Turtles will have to travel in the sewer tunnels to get to some places in Area 1.

Most of the tunnels contain valuable weapons and even more valuable pizza.

The sound effects and music in the tunnels and buildings are excellent.

Great graphics and excellent character control in the Action Scenes make this an exceptional game.

Some of the sewers can be incredibly challenging.

Where's that bad guy?

All of these things have earned T.M.N.T. some high play-test ratings from game-testers. (In fact, without instruction booklet, this would have only made it to stage three.
Here’s a sneak peek at Area 2. In this Area, the Turtles will have to explore underwater caverns and disarm eight bombs that are set to blow up the dam. You would think that the Turtles would be able to maneuver well underwater, but this is not the case. Ever since they grew to human size, Don, Raph, Leo and Mike have become lousy swimmers.

There are only a few enemies inside the dam, but the real challenge won’t start until you get up to the top. Area 2 features less combat than Area 1, but requires speed and the ability to maneuver the Turtles past various obstacles.

Suddenly, hold your breath... it’s Turtle time!

One of the things that makes Area 2 so challenging is that the Turtles have only a limited amount of time to find and deactivate all of the bombs, and since they lost their ability to swim well, maneuvering through the electromagnetic barriers and benumbing seaweed can be very difficult.

Fantastic action and control.

All this adds up to a game you can really look forward to.
**Bionic Commando**

Sometimes I get stuck behind a barrier with no way out. What should I do?

Occasionally, you may enter an area without being fully equipped to pass the barriers. If this happens, you can easily leave the section by pressing and holding the Start Button and pressing the A and B Buttons at the same time. This will lift you out onto the main map. This technique also works well if you have equipped yourself with the wrong communicator.

Any of the barriers will give way if you have the right weapon. Make sure that you have the Rocket Launcher before you go into Area 6, and steer clear of Area 7 until you've found the 3-Way Gun.

There is a barrier in Neutral Zone Area 15 that is impassable unless you use a weapon. Since Neutral Zones quickly turn into combat zones when a weapon is fired, your first instinct will be to avoid shooting this barrier. In this case, however, you must. Shoot the barrier and quickly fight your way to a doorway. There you'll find a valuable item.

---

**Bionic Commando**

Where is the Machine Gun? Where are the hidden passages?

Once you save Super Joe, he will tell you where to go and exactly who to see to obtain this important item. When looking for it, pay close attention to what the characters say and how they identify themselves. Many characters may offer you the Machine Gun, but only one will actually give it to you. Don't let someone trick you into thinking that he is the right person.

In Area 17, a character in a room will let you in on the locations of the hidden passages. He'll talk to you from a distance, but he'll only give you the information that you are seeking if you cross the spiked pit in the room and meet him directly. With a few well placed swings of your Bionic Arm, you'll be able to reach him. After you talk to him, the passages will show on your map. You'll find the helmet in one of these passages. This is a valuable item in heavy combat areas.

Game Play Specialists clue you in.
**Castlevania II Simon's Quest**

How do I get to Brahm's Mansion? Where are the Daggers?

The ferryman will take you to Brahm’s Mansion, but only if you are holding Dracula's Heart. If the arrow on the Sub- Screen is pointing toward the heart, the ferryman will help you. If you are not holding the heart, he will take you across the Dead River to the town of Alba. The Count’s Heart is hidden somewhere in the Mansion of Lauber.

There are some spots that look like dead ends but are not. This is the platform on the right side of the Camilla Graveyard. From the graveyard, you won’t be able to reach the platform.

The Daggers are useful weapons that will help you fight your way on to the very end. You’ll be able to buy the first one in the town of Veros. The Silver Dagger will be given to you by a stranger when you drop garlic in the Camilla Cemetery. The Golden Dagger will be yours when you defeat the Grim Reaper.

Drop garlic here to meet the character that has the Silver Dagger.

A particular item will help you overcome this barrier.

You’ll have to find another way to get to the right side here.

**Blaster Master**

How do I defeat the last enemies in the third and fourth stages?

Nearing the end of Stage Three, you should power-up the gun to at least half of its maximum strength. There are sixteen moving turrets at the end of this stage. They appear and attack one at a time and after a few seconds they become stationary. You should able to avoid the two different types of fire from these opponents. When all sixteen enemies have appeared, the ones that you haven’t yet defeated will take turns coming back to life until either you, or they, remain.

Close contact with dangerous materials have made the frog at the end of Stage Four a tough opponent with three deadly attacks. When he lashes out his stinging tongue, position yourself just to the left of the mouth. Since you are holding your weapon in your right hand, you should be able to aim directly for the frog’s mouth and still avoid the tongue. The shower of fireballs that the frog unleashes next can be avoided with a quick dodge. A very large fireball can also be avoided. Get out of the way quickly and retaliate if you can.

Open wide and say ah. Position yourself here for valuable hits on the deadly boss frog.
Zelda II: The Adventure of Link

Where is the Hidden town of Kasuto? How do I find the Magic Key?

"The Wizard got all of the people of Old Kasuto together. He said 'There are too many ghosts here. Go East.' They went East past the three rocks, looked over their shoulders and saw the ghosts following them. The townspeople were smart. They knew that some ghosts couldn't go through caves. They went north to a cave and when they went through they found a sandy beach and a clump of trees. They built a new town amongst the trees to hide them from other ghosts that might happen by, and have lived there ever since." Follow the path of the townspeople of Kasuto and use the Hammer to chop down trees and reveal the location of the hidden town.

Once you find the Hidden Town of Kasuto you'll discover within the town the last Magic Container, a new spell, and the Magic Key. If you have seven Magic Containers, you'll find someone here that will give you an eighth container. Once you've reached this level of magical expertise you'll meet someone else who will teach you a spell. The spell that he teaches you, used somewhere in the town, will be the key to finding an item that will help you get through the remaining palaces.

Use the Hammer to clear this area in search of the hidden town.

Use the spell at a deadend.

When you have all of the Magic Containers, this man will teach you a new spell.

**Zelda II-The Adventure of Link**

How do I enter the building in Darunia that gives a clue? What is the secret to the Churchbell clue in Mido?

One of the closed doors in Darunia will give you the clue, "There's someone behind this door." There's no way to unlock or open the door but you will be able to get inside the building. Entering a building can only be done in a limited number of ways, and the way to enter this building is one of the most unconventional. One of the Spells that you have in your possession will help you reach this entrance. The same spell will help you in the Harbor town of Mido. Someone tells you, "No one is here but a Churchbell will ring." This should point you in the direction of the Church. There's an entrance here but you'll need certain abilities to reach it.

The door is locked and there seems to be no way in. How will you get inside? Try your Santa Claus impression.

**Mickey Mousecapade**

How do I get through the Woods?

It's important to pay close attention to the color of the trees in this stage. You'll begin in the Spring. The trees will be pink and white. Enter the second door, then you'll be in the Summer with green trees. Enter the second door here as well. Next will be the Fall. The enemies are very tough here. After you defeat the second group of bears, jump and throw Stars at the third tree to the right of the gap. A door will open in the tree. This leads to the Winter. Advance to the right until the section wraps around to the beginning, then jump and fire at the tree to the right of the Start sign. A door will open here that will lead you on to the end of the stage.

Shoot the third tree away from the pit and an entrance will open.

I really hate book reports. I wish I could just go home.

Shakespeare, Hemingway, Dr. Seuss... why don't they have anything good?

Hey, this doesn't look too bad.

Thump

Well, excuse me.

Once upon a time, there lived a brave hero named Link... He wandered through Hyrule seeking adventure and challenges.

And he was found by both!

...and that, you dirty scoundrel!
Nester could not convince Riverman to extend the bridge, so he could go no further than the town of Saria.

Look, I'll give you my entire collection of Metroid tips.

Guess I'll have to figure this out on my own.

And so our hero set off on his quest, knowing only that he had to look to the north woods for help.

North of Saria he crossed a river, then for a long time wandered about the forest until he lost all sense of direction.

Maybe this wasn't such a good idea.

I'll bet you're looking for Bagu so you can cross the bridge in Saria.
I've got good news for you. He's in the log cabin right in the middle of these woods. Here, I'll show you the way.

Hi, Nester!

What are you doing in this story?

Me? What is he doing in my story?

Oh no you don't...! You're not going to ruin it the way you always do.

Okay, okay... Maybe I got a little, a little wrapped up...

But my report... Ouch, my ear... Are you listening to me?... Hello?...

Are you Howard's sister... or are you just having a bad day?
**Apparatus Applications**

The Bionic Arm, while slightly difficult to get the hang of, is an extremely useful apparatus. Mid-air swings timed just right will help your character move across wide gaps easily. A freefall tumble can be saved out of nowhere with a last chance extended reach. The Bionic Arm can also be used to grab items that may be too far away, or too dangerous to run to. A key to your success in Bionic Commando will be to master the use of this device.

![Freefall can be saved by a last chance grab.](image)

To prepare for the higher levels, it's best to build up your energy toward the beginning. In the second section of Area One, there are a few areas where weak enemies will come down with great frequency. Each one you defeat will leave a bullet, and each bullet will contribute to an increase in your energy level. You can build up a tough fighter in just minutes. One helpful strategy is to collect bullets until you are just one away from an increase in maximum energy before you go into a difficult area. Then, when you're almost out of energy, collect a bullet and your energy will be extended and refilled.

![Defeat enemies here for energy increasing bullets.](image)

![Collect bullets and you'll have a fighter that can last longer when facing the enemy.](image)

**Stage Select!**

Golgo 13 has only 52 chances to capture the leader of the evil DREK. We've developed a way you can choose exactly which stage to start from. This procedure requires a lot of button pushing on both Controllers, so you may need help from a friend. Toward the end of the demonstration sequence, just after the words "Top Secret Episode" appear and fade, you will see a close-up of Golgo 13's eyes. Press and release the Start Button on Controller I, then press and hold Up and the A and B Buttons. On Controller II press and hold Up and Left and the A and B Buttons. While the buttons on both controllers are being held, press Start again on Controller I. "00" will appear on the screen. Change this number by pressing Up and Down on Controller I. When you get to the desired stage (see the key below), press the A Button and be prepared to face the challenges ahead.

![Press Start on Controller I. Hold Up, Left, A and B on Controller II. Hold Up, A and B on Controller I, and press Start again.](image)

Milon's Secret Castle

Getting Started

The first floor demon will only make an appearance if you have purchased the Shrink Potion and the Spring Shoes. The Spring Shoes are difficult to find at first. In the first room, walk along the floor until you come to three blocks. Shoot the blocks on the left and right and push on the remaining center block for several seconds. When the block moves, shoot at the space where the block was. A door will appear and you'll be able to enter a shop to buy the Spring Shoes. The shop that has the Shrink Potion will be in the second

From Agent #705

Intelligence reports tell us that there is Continue Code. It will, however, only work if you have defeated the first floor demon and have retrieved the first crystal.

Defeat the first floor demon, and collect the Crystal to continue. A door will appear. You can buy the Spring Shoes here.

Bonus Stage and Continue

The Continue Code is similar here to the Milon's Secret Castle code. Here, though, you must find the Bee at the end of Area 1-1 to have the ability to continue. Then when the game is over, hold Right and press Start.

From Agent #706

Bonus Stages on Adventure Island will let you reap in a crop of ripe fruit for extra Life and points. When you get to the last two totem poles in Area 1-1, defeat the enemy and wait between the poles. In a few seconds, a platform will appear and take you to this special stage. You'll find other Bonus Stages by searching for hidden eggs containing keys and keeping an eye open for upward bound platforms.

Jump around near the Area 1-1 goal and an egg will appear that contains the Bee that will enable you to Continue.

Stand between the Totems and wait for a platform.
**OPERATION WOLF**

From Agent #099

Greater Gratitude

Our agents on the front line have discovered alternate endings for this popular combat game. The president will greet you with varying degrees of gratitude depending on how many prisoners you save in the last stage. Your financial reward and the size of the president's smile will be larger with each prisoner saved.

More survivors will make for a happier president and a greater reward.

The challenge of the last stage is to defeat all of the enemy tanks and soldiers and save the prisoners in spite of the proximity of the enemies and the constant attacks. We've found that a helicopter, if destroyed by a grenade, will cause a greater radius of explosion than a helicopter that has been shot down with the gun. If a helicopter is close to a prisoner, the prisoner has a better chance for survival if the helicopter produces less shrapnel:

A helicopter hit by grenades will be dangerous for those on the ground.

Using the gun to take out helicopters will help insure the safety of the prisoners.

From Agent #086

Get a car with all the extras!

Here's how you can start with the ability to create Oil Slicks, a Smoke Screen, and launch Missiles. When the title screen appears, press and hold the Select Button, the A and B Buttons, and the center of the Control Pad. Press Start and your car will be loaded with all the extras. Press Select in order to change from one option to the next.

Press and hold Select, A, B, and the center of the Control Pad. Then press Start and get moving!

This code will give you an extra car too!

**ZANAC**

From Agent #123

Choose your own stage.

Warp to expert levels instantly! Just press Reset on the Control Deck 13 times and press Start on the Controller. You'll discover that you can change the stage number on the screen by pressing Left and Right on the Control Pad! Choose to Continue and you'll start on the desired stage! It'll only work for the first ten stages though. You'll have to get to Stages 11 and 12 on your own.
From Agent #015

Bypass the Wizard!

When you get to the second forest scene, which is just after the red caves, walk all of the way to the left until your character is at the edge of the screen. Then levitate and stop levitating very quickly by tapping Up on the Control Pad repeatedly. Your character will go off the screen to the left and appear again on the right side. You'll find that the scene has now changed and you will be back to the first forest. Go to the end of this stage and defeat the Skull. The princess that you save this time will be Penelope, the princess that you usually save at the end of the second forest! Continue playing, and in a few stages the last princess will be saved!

Fight your way to the second forest stage.
Tap Up on the Control Pad while on the left edge.
Defeat the Skull and save Penelope.

From Agent #207

Strange Weaponry

This trick requires incredible timing, but the results are worth it. This way you'll have weapons to take on Willy! In Mission 4, drop kick the Chintai and leave the knife where it falls. After you've defeated them, wait until the last Chintai blinks for the fourth time and pick up the weapon. It will transform into something like a golf club. Use this weapon against the Linda, but near the end of the battle, let one knock it out of your hand. Defeat the enemies and when the last one blinks for the fourth time pick up the weapon again. This time it will look different.

Grab the weapon when the last enemy blinks for the fourth time. It will result in a strange transformation.

Here's something else that requires good timing. You'll be able to pass the wall of cement blocks that pop out without a scratch most of the time. Just wait for the closest top block to come out two times in a row, and walk quickly to the right. All of the other blocks will miss!
**Ironknuckle Strategies**

The Ironknuckles have always been among the most fierce opponents in Hyrule. Our team of experts has studied the Ironknuckles and have come up with several strategies that will help you avoid, defeat, and even take advantage of these tough characters.

The Jump Spell can also be used to avoid conflict with some of the stronger enemies. In some cases, especially before your character has achieved very high levels of experience, it's better to leap over an Ironknuckle.

One strategy that we have found works very well in fighting the durable Ironknuckle is to crouch down and jump and jab as quickly as possible. The quicker the better. If you have the NES Advantage or NES Max, the turbo features will help with this method.

At Palace Two and beyond, you can jab at the visor of the Ironknuckle statue to either produce Red Magic Potion or make the statue come to life. If the potion appears, you can use the Life Spell to replenish your Life and then take the potion to replenish your Magic. If the statue comes to life, you can defeat the Ironknuckle for 100 Experience Points, leave the Palace and come back. When you return, you can repeat the same process.

**Simon's Quest**

*From Agent #072*

**Invisible Elevator!**

Here's a quick tip. Our agents have found that the moving platform at the beginning of Berkeley Mansion is always in place, but it's only visible when Simon is holding a Crystal. If he has not selected a Crystal, Simon will not be able to see the platform.

Note: We've seen two different endings for this game. But our agents have not found how the endings are determined yet. If you have ideas, let us know.
Experience Link

Use skills of one character to advance the abilities of others.

You've saved Zelda from her long sleep and now you would like to go through the game again with another character. With a simple procedure, you'll be able to start this new character with advanced abilities and experience.

First select the character that has completed the game. This character will start with the maximum levels of Magic, Life and Attack. With his advanced skills it will be simple for him to conquer the lower level palaces, as each enemy can be defeated with only a few hits and he will know spells to aid him in his journey.

When the character conquers the First Palace and places the jewel in the statue, he will be awarded with enough Experience Points to bring him up to a total of 9,000. As the character's Experience Points begin to go up, press the Start Button to pause the game. Then, on Controller II, press the A Button and Up on the Control Pad at the same time. The game will give you the option to Continue or Save. Elect to Save and choose another character to play. This new character will begin by earning the points that were intended for the other character. Instantly, he will receive thousands of Experience Points and move up several levels on the way.

If you want even more points for this character, you can use the same procedure and have the more experienced character go through the Second Palace.

From Agent #104

The fulfillment of Link's mission is to build enough Experience Points for abilities and the increased strength that some of the more difficult palaces require. With more experience, Link will be able to defeat enemies more easily, he'll have increased stamina, and spells will be easier for him to cast. Here's a way to build experience quickly and easily. If you have a character that has been through the entire game, you can use his advanced abilities to earn Experience Points for your less accomplished characters.

Choose a character that has been through the entire game. Conquer an easy level and as you are collecting your points, pause the game and save the character.

Choose a new, inexperienced character and watch the points build up! You'll be on the fourth or fifth level of experience in no time.
Super Skateboard Strategy

The Downhill Event has been the subject of a large part of our agents' investigation. They've determined that the pipe near the center of the course can be negotiated for big bonus points. The trick is getting in and staying in. If you crouch down just before you enter, stay down, and don't turn while in the pipe, and you'll be successful. Remember, the more tricks, jumps and turns that you can do without taking up too much time, the better. Each extra move will earn you valuable bonus points.

In the High Jump, if you've jumped as high as you're going to go, press the A button to kick up your board. This way you'll add a couple of inches to your jump height.

The Pool Joust is a tough event that can be mastered with practice. A good strategy is to stay on the very edge of the pool and watch to see exactly what your opponent is going to do. Be careful! If you stay in one place too long it will be your downfall.

Good luck!

From Agent #013
Codename: Shred Head

There are a few tricky spots in this fast thriller that our agents have been working on. They've donned their skating helmets and protective pads and have hit the pavement, so to speak, to come up with some tactics that will help you be the champ of the ramp.

Crouch down, stay down and skate straight.

Agent #013 has discovered a building halfway through the Jam Event that looks like an obstacle but actually turns out to be no problem at all. Just after the first wire fence, veer sharply to the left and go straight in one doorway and out the other to gain a few precious seconds on your opponent.

Defeat the lesser enemies, leave, come back, and some of your foes will have transformed!

Here's a quick note on The Legend of Zelda. We have discovered that inside some labyrinths, where there are rooms that have more than one kind of enemy, you'll be able to avoid defeating some of the tougher monsters. Simply defeat the less difficult creatures, so all that remains are the tough ones. Leave the room, come back, and sometimes some of the tough enemies will have changed into easier-to-defeat enemies. Repeat this procedure and you'll be able to breeze by some challenging areas!
Short cuts to Birdo

In Stage 1-1, after you enter the cave where the waterfall is, climb the vine and jump across the waterfall to the left with super speed. You'll find bombs and a break-away wall, with a door on the other side. Pick up a bomb and drop it down to the wall as it's flashing. If your timing is right, you'll be able to blow open the wall and make it to the door. The door will lead to an area that ascends to the left. Jump up to the top and off the screen. Then move left and soon you'll meet up with Birdo and the end of the stage.

In Stage 3-1 you can cut some corners. First go through the door at the beginning. When you come out, climb the clouds to a magic carpet and float up to a vine. When you climb the vine, there will be clouds to the left that you can't stand on. You will, however, be able to put a mushroom block on the clouds and then stand on the block. Then advance to the left to a door. This door will open to an area with two bombs and a wall. Bomb the wall, and move on to the left to the Birdo at the end of the Stage.

Here's one from our desert survival corps. In Stage 6-3, just after you climb up the ladder, walk to the left until you touch the wall. Let your character sink into the sand and when you're almost covered with sand, move to the left and press the A Button repeatedly. You will swim through the sand under the wall to the other side. There will be a door here that will lead to an area in the clouds. This is not a mirage: Advance to the left and you'll see the pyramid entrance to Birdo's lair. You're almost to the end!

THE BROS. SEEM TO BE AN UNBEATABLE TEAM

A runaway favorite among die-hards, Super Mario Bros. 2 bounds away with the number one spot for the second time in a row—over eleven times the number of votes of number two! Go guys!
Hello folks. Welcome to the Power Pad Play-offs. I'm Steve Sportsguy and live at the scene is Mike Motormouth. Motormouth?

The contest begins. New from Nintendo, the Power Pad invites you to test your athletic abilities along with your friends or against a video challenger.

Thanks Steve. I'm here in Trevor's living room, the site of today's games, and I think it's going to be a close one. The teams have been warming up and they're ready to show their stuff.

Introducing... in red, the Power Pros, and wearing gold, the Nintendo Nuts. Let's Go!
Our competitors meet first at the World Class Track Meet, where they run and leap for the Gold! Looks like our challengers in the 100 M Dash, Travis and Danielle, are ready to take off. Let's watch the action.

They're off! Travis takes an early lead. Danielle comes back strong. They're neck and neck. It's going to be close!

Danielle wins!

The teams finish with a tie in this game. Let's move on.
Aerobic exercise in the Dance Aerobics studio is fun and entertaining, as our Aerobics Superstar, Jeanna, demonstrates.

There's much more to Dance Aerobics. Tune Up, Mat Melodies, and Ditto test your musical and physical abilities.

Everyone agrees that Terri's own Tune Up composition tops the charts and Danielle follows the bouncing ball and scores a perfect 100 on Mat Melodies!

There are no clear winners in the Ditto event. Everyone is all tied up while trying to match the computer's moves. The Power Pros win the overall Aerobics contest and they lead going into the final event!
The whole group gets into the action at the Super Team Games. Good teamwork is essential here, as many of the events require each team member to work together toward a common goal.

Danielle turn in a sturdy performance in the Obstacle Course and wins easily.

The Competition was tied going in to the Tug Of War. And the winner is...

Trevor pushes the Nintendo Nuts to a free wheeling victory in the Skateboard event.
Well Mike, it looks like everyone had a lot of fun. Who won?

It was great fun, Steve, and the Power Pros came out victorious.

Everyone is really a winner with the Power Pad and these three terrific games.

Fun, fast-paced action and physical fitness. That's the new Power Pad, now sold separately with World Class Track Meet.
This time around in Video Shorts, we go from 16th Century feudal Japan to modern day Mexican jungles where we'll do battle with a futuristic alien. In between, we'll be put through our paces in military strategy and helicopter action. We will explore the mystic arts of kung fu and tarot readings. Roll 'em.

CALIFORNIA GAMES™

You'll be in a state of excitement with the variety of "fun-in-the-sun" activities to choose from in California Games. For you free-wheeling types, there's a treacherous trail biking course, an intense skateboard half-pipe, and a bad obstacle-laden sidewalk course to challenge the best rollerskaters. Hit the park for a little foot bag or flying disc toss or board your board and grab some waves. C'mon, dude, bring your baby oil and let's catch some rays.
Ancient folk traditions meet state-of-the-art technology! Tarot cards are the centuries-old traditional cards used by fortune tellers to predict the future. Taboo is the modern day technological version of a typical Tarot reading. All 78 cards of the regular Tarot deck (from which our modern day 52 playing card decks have evolved) have been incorporated into a Game Pak. Simply input your name, birthdate, sex, and ask a question about a specific upcoming situation or event. The electronic Tarot deck is shuffled and one particular card is selected to represent you, while ten more cards are laid to provide you with the answer to the question you just asked. After your reading, select a state and lucky numbers will be displayed. They could be your winning numbers. Taboo even comes wrapped in a black silky velvet cloak, the traditional wrap of a Tarot deck.

The Tarot cards are in the positions forming the celtic cross. Select a state and get your lucky numbers.

Taboo is intended strictly as entertainment and as a curiosity. No other use is encouraged or implied. Taboo deals with a subject matter that may not be appropriate for some players.
Welcome to 16th Century feudal Japan, rampant with chaos as there is no single ruler or government to unite the people. Many Daimyos (leaders of smaller sections of the country) attempt conquest and growth of their individual empires and vie for control of the entire nation. The most notorious of the Daimyos is Oda Nobunaga and his ambition, like the other Daimyos, is total conquest. With a “Zelda”-like memory, this game is rich in the flavor of Japan’s civil war period, relating the uncertainty and brutality of the times. Accept the role of one of 50 Daimyos and define his characteristics. Soon you’ll have an understanding for the problems which face the Daimyos as a menu screen with 21 commands appears and you must make decisions which will determine the future of your followers. If you tax the people, will they revolt? Should you sell your surplus goods and hire ninja spies or simply declare war or...?
DESERt COMMANDER™ from KEMCO-SEiKA

"General, we got enemy fighters coming in from the east and our reconnaissance team reports a division of infantry and armored units to the south, but they've left their base unguarded. Request orders, sir! Over!" "Ready the antiaircraft weaponry, send our fighters south, and mobilize our bombers to take out that base! Yesterday, Mister!!!" You are in command of your country's defense. With your limited budget, select the equipment and personnel that you think will be most effective. The large overview map will keep you updated as to the enemy's positions and movements. Using your world renowned combat ingenuity, you must command your forces to maximize their effectiveness. You must protect your base and keep supplies replenished. When your forces meet the enemy and engage in battle, a split screen shows the action and keeps track of casualties and equipment loss. Play against the computer or a fellow general.

Determine your needs and set allotments for equipment and aircraft.

Place your squadrons in strategic places to gain an early advantage.

This split-screen combat display will show wins and losses of both sides.
**MAPPYLAND**

Here's a bouncy little quest to get your spirits hopping and move you to spring into action. Mappy, a policeman mouse on vacation, has some hurdles to vault. You see, Mappy is having a bad day. It's Mappy's girlfriend, Mapico's birthday and the Guchi Gang has stolen and hidden the presents that Mappy had bought for her. Guide Mappy through the eight areas where the presents are hidden, while the Guchi Gang chase you and try to prevent you from finding your treasures. Use quick thinking and the many trampolines available to outmaneuver these rascals. Get the jump on the gang with available weapons like fireworks, bowling balls, and fish. Mapico's party starts soon and the clock is ticking!

Get the special items for protection or to bump the Guchi Gang.

Grab the "brass ring" for a happy escape or to knock over the gang.

**AIRWOLF**

Your name is Stringfellow Hawke and you pilot Airwolf, the world's fastest, most formidable helicopter. You and your partner, Dominic Santini, are summoned out of retirement by Michael Coldsmith Briggs III (code name: Archangel) of Central Intelligence. Your mission is to infiltrate enemy bases and pick up prisoners previously thought missing in action. If possible, take out enemy aircraft and control towers. But beware. The enemy has learned of your mission and will be ready. However...you are in command of Airwolf!

Destroy the enemy's control tower and you'll prevent them from sending up more aircraft.
Deep in the heart of the tropical jungle is Major Dutch Schaefer who, along with his team of commandos, has just completed a rescue mission. However, one by one his men have disappeared, victims of a savage alien with an uncanny invisible camouflage. Now, it is one man, a trained combat strategist against a deadly powerful and mysterious alien. The major will have to use all his experience and cunning to defeat this alien foe and the enemy soldiers that still lurk about. "Soon the hunt will begin." Inspired by the hit action thriller.

Ryuhi, a young man trained as a master in the martial art of Kempo, sets off on a journey to take part in a tournament of contact sports. His challengers are the criminally brutal Tusk Soldiers, who six years earlier had robbed Ryuhi’s mentor of several Secret Scrolls. Throughout his journey, Ryuhi must defeat the Tusk Soldiers to recover the stolen sacred writings and reveal the Soldier’s true identities. Each scroll will also increase Ryuhi’s abilities and powers, enabling him to be the tournament champion.
Announcing a Revolution in Home Video Fun!

On April 1, 1989, Nintendo of America Inc. unveiled a new series of Game Paks which it hopes will become the latest craze for its popular Nintendo Entertainment System (NES).

The new games are all part of what Nintendo calls the A.F.D. Reality Game System which emphasizes activities from everyday life unlike the currently popular fantasy quests and action games. A Nintendo spokesman stated that the new games would be fun, educational, and above all derived directly from real experiences that any player might one day experience.

For instance, in the Home Life Series of games, the Game Pak Muttroid teaches you how to give the dog a bath, clip its nails, and train it to fetch your slippers while at the same time you are beset by leaky plumbing and visiting relatives with three Siamese cats. Kids who got a chance to test the game said that it was just like real life except they didn't get wet.

Another favorite test Game Pak came from the Job Training Series. People who plugged in a copy of Home Ninja Workshop learned how to scale walls without the assistance of ladders or rope, how to conceal themselves behind curtains and beneath chairs, and how to transform into an ancient warrior by using marshmallow cream. If this sounds a little too real for your tastes, maybe you would prefer more domestic games, such as Mommy Kong, Kid Sisters R' Us, or even Russian Hat Rack which pits your hat tossing skills against those of a trained bear named Sasha. Whatever your preference, the new Nintendo A.F.D. Reality Game System has a game to which you can relate, because now you're living with power.

By the way, for those of you who have been wondering what the A.F.D. stands for, it turns out that it is short for April Fool's Day. Gotcha.
THE WORLD'S FIRST

We’ve had so many questions lately that we thought we’d answer them here in the NES Journal. However, rather than just give you the answers straight out, we decided to create this little quiz to test your video game comprehension and to do away with false rumors. There are no prizes; just the inner pride of knowing that you met the challenge of this grueling ordeal. And your mother will be so proud.

Funny, I don’t see any resemblance.

MARCH / APRIL 1989 85
The Former "Dallas" Star is Tuned into Nintendo

Model, actress and NES Pro. This Star has it all.

It all started back in December, 1986. Celebrity teens gathered together in Beverly Hills to participate in the "Super Mario-a-Thon" developed as an event to help raise funds for the Scott Newman Foundation, an anti drug organization. What started, you may ask? Shalane McCall's love for Nintendo! Just as millions of us have found a place in our hearts and homes for Nintendo, sixteen year old McCall has as well. Best known for her five year role as Charlie Wade on the hit TV series, "Dallas," McCall has recently left the show to pursue her modeling career and has completed production of a new home video called "Modeling: What It Takes With Shalane McCall."

But this home video is not the only one you'll find on her shelves; Nintendo home video games are stacked up there, too.

"Super Mario Bros. is my favorite game," explained McCall. "I learned how to play the game while participating in the Super Mario-a-Thon and have loved it ever since. I'm really looking forward to Super Mario Bros. 2!"

And, McCall does not experience the fun and excitement of Nintendo alone. Friends such as Ahmet Zappa, son of Frank Zappa, and Ryan Lambert from Kid's Inc. take time out from their busy schedules to challenge McCall's Nintendo game playing skills. "I often go to a friend's house to play Nintendo," said McCall, "and it's fun to see my friend Steve Dorf on the Double Dragon ads."

Since completing production of the modeling video, McCall has been on radio and has made appearances at various charity events and numerous publicity appearances on television shows. When not traveling, working, or playing Nintendo, McCall likes to listen to music, especially from favorite groups such as The Smiths, U2, and Jane's Addiction.

To her credit, in addition to "Dallas" and a successful modeling career, McCall has won more than 100 beauty pageant awards and has received several other awards including Youth in Film's "Best Young Actress in a Daytime or Nightime Television Series." Will an award for being a hot video game player follow? Only time will tell.
Here are a couple of eyeball-bending picture puzzles to test your powers of observation. Be thorough and look carefully at the puzzles, but see how quickly you can solve them. Time yourself and race a friend!

The two drawings below show Link having a typical day in the forest. However, there are six differences between the two pictures. Can you spot them all?

Mario and Luigi, lost in the forest, are being observed by seven forest creatures who have hidden themselves. See how many animals you can discover.

Link differences: Cross on shield is upside down. Tree branches are different. Darknut's eyes are different. Letter on bag P and R. Lammell's whisker's and body are different. Mario Bros: Lion, pig, squirrel, bird, snake, crocodile, seal and deer.

Graphics & Sound

Bright, sharp graphics and sensational sound effects will win a game high marks in this glitzy category.

Challenge

Make sure you match your skill level to the challenge rating. You'll maximize your fun if a game is not too easy or too hard.

Play Control

When you can actually feel the connection between your controller and the screen, that's Play Control!

The spotlight's on you! We think you'll agree that these players possess video prowess!

If you are looking for the best Power Players that exist, you have found them. But I mean REAL Power Players (the ones that are hard to find). Our team is composed of two brave adventurers called Master K and Master R. We are well trained with good reflexes and good hand-eye coordination. We have good memories, and best of all, we have our secret weapon which is self-confidence. There is no game in this whole world that we can't finish or no princess that we can't rescue. We are the best, the greatest and they don't come any better. Please forgive us for not being modest at all but it's just that we have finished so many games. To mention just a few, they are Castlevania, Commando, Contra, Deadly Towers, Double Dragon, Ghosts 'N Goblins, Goonies II, Ikarl Warriors, Iron Tank, Karnov, Kid Icarus, Kung Fu, Metal Gear, Metroid, Mike Tyson's Punch-Out!!, etc...

My son Kelly has been playing video games since he was three. He sharpened his skills and instincts on other video game systems. Then for his fifth birthday (October '87) he received his NES. In my opinion, a Power Player was born that day.

I'm sure he's one of the youngest players to get through The Legend of Zelda, and it only took him about six weeks. He beat Rygar in two nights, Wizards and Warriors in one day, and he has scored 9,999,950 on Super Mario Bros. He has completed Kid Icarus in five days and in three days he has defeated the Mother Brain in Metroid. Next up is Super Mario Bros. 2 and Zelda II—The Adventure of Link.

Kelly seems to play with a sixth sense. I can't even come close to his accomplishments. He gets calls from all the neighborhood kids on his "hot line" wanting to know more information.

His favorite games are Mike Tyson's Punch-Out!!, Goonies II, and Kid Icarus.

Kelly's best tip is when fighting Twinbellows in Kid Icarus, trap him in the bottom right corner, facing away from you. He can't turn around, and you can blast him at will.

Thanks!

My brother, David and I would like to consider ourselves Power Players. After owning an NES for six months we have found it to be the most enjoyable thing we've ever played. Our technique is to have the person not playing take notes and guide the other. This way the person playing only has to con...

Calling all Power Players
Would you like to see your name up in lights? Send us a letter and pictures recounting your own video achievements (or a friend's).
We'll profile several Power Players in each issue.
I think I’m a Power Player. I saved the princess in Super Mario Bros. without warping. I can beat Contra seven times in one game. In Major League Baseball, I can beat the computer 122 to seven. Honest! I can finish The Legend of Zelda in six games but my average is about 20 because I goof around a lot. I can get to the 25th round on Duck Hunt. I am only 10 years old.

defeated Medusa in Kid Icarus, and beat Great Puma in Pro Wrestling. My most recent accomplishment was defeating the Red Falcon six times in Contra and achieving a score of 6,553,500.

I have too many tips to list, but here are a few. As your character is being defeated in Contra, he blinks for a few seconds. At this time, he is invincible. You may be able to use this time wisely to walk through enemies and bullets and get just a little further.

Hello! My name is Steve and I think I should be considered a Power Player. I have had the NES ever since it was invented. Since then I have defeated Ganon in The Legend of Zelda twice, mastered Kung Fu, defeated Mother Brain in Metroid, mastered Spy Hunter, completed all the levels in Gyromite, got 999,000 on Duck Hunt staying about five and a half feet away from the screen, got 999,000 on Hogan’s Alley from five feet away.

Here’s a drawing that I did on my computer of me at my NES when I achieved my high score in Contra.

Power Player Profile: Brian Michaels

Age: 16
City: Rockford, IL

Favorite Games: I like Super Mario Bros. 2. It’s different. You have to figure a lot of things out.
Outstanding Video Accomplishments: I finished Super Mario Bros. 2 in two days, beat Mike Tyson in Mike Tyson’s Punch-Out!!, and pinned The Great Puma in Pro Wrestling.
Strategies: I could go on for hours about tips but instead of having hints for specific games, my advice is to be patient, because anger and frustration lead to mistakes. It’s also a good idea to plan a strategy. Pause the game when you get in a trouble spot, and look through issues of Nintendo Power. You could also talk to other players and trade tips.
Other Interests: I like to read a lot of books. Stephen King is my favorite author. I like Eyes of the Dragon.
Future Games: I’d like to get Zelda II—The Adventure of Link, Rampage, and Track and Field II.
Here they are, the hottest scores around! If you’d like to share your best scores with the readers of Nintendo Power, send them in! You could be the next NES Achiever!

Send your high score and be a Power Player! Have you been bragging about your great scores lately? Why not send them in and see how they stack-up against the best players from Coast-to-Coast? Send your Screen Photos to: Nintendo Power NES ACHIEVERS P.O. Box 97033 Redmond, WA 98073-9733
As you know, things happen rapidly in the video game world: New releases, old arcade favorites adapted for home use, sequels, delays, new equipment and accessories, innovative techniques, games based on the latest movies, and so much more. And, as always, PAK WATCH is right here with all of the up-to-the-minute inside info. There are even changes from last time and we've brought you those, too. But first, a request: Please, PAK WATCHERS, don't write us asking for more information on the games. We will tell you everything we can right here in Nintendo Power just as soon as we can. Promise.

Capcom is continuing their association with Disney. They produced Mickey Mousecapade by developing three Game Paks based on Disney themes: Duck Tales, Rescue Rangers, and Adventures in Disneyland, based on the different areas of the theme park.

Well, we finally managed to nail down who it is that is producing the Game Pak based on Star Trek. Bandai has announced their Enterprise-ing intentions, but so far, all we have is a brochure.

Vic Tokai proved that they can make a terrific video game with Golgo 13 and we're waiting to see if the quality will continue with this hot new adventure game. The game has tremendous play feel and a bit of role playing.
Introducing the first Nintendo Power Pad action/adventure game. For the first time, utilizing the Nintendo Power Pad, you'll be able to take part in an action mission. You'll be closer to actually being in the video game as the main character because you will be performing the action in real life that your video counterpart performs on the screen. When you turn, the cop turns. When you run, the cop runs. As the title character, you will chase criminals through the streets and bring them to justice. You will also utilize the regular Controller with the Power Pad to help subdue the villains once you catch up to them. Look for a release of this one later this year.

Use your nightstick on sneaky criminals hiding behind the trash cans.

Athletic World

This is a one-player version similar to the Power Pad hit, Super Team Games. The obstacle course is fairly hard and will challenge even the toughest athletes out there. Sprinting your way this Spring.

Gossip

Hi-Tech has announced a couple of new Paks: Chessmaster and Remote Control. The latter is based on the new hit game show seen on MTV.

Chessmaster

Batman

There is a megahuge-budget motion picture of Batman due out this summer. Sunsoft has visited the set at Pinewood Studios in England and decided to produce a game based on the Masked Man-hunter.
Arcades have always been a natural source of inspiration for home video games. In development are four favorites which should convert nicely to the NES. We are delighted to be able to say that all of these reportedly have two-player simultaneous play! Look for all of them sometime this year.

**AD DUDES**
Data East is bringing you the NES version of this arcade giant. We're not sure what the fascination is for urban brawls in video games these days or why this one became a mega hit, but we hope it lives up to its arcade counterpart.

**SUPER DODGE BALL**
We've heard it (or variations) called Bombardment, Soak'em, Prison Ball, Bean Ball, and Slaughter Ball. Whatever name you used in the schoolyard, Super Dodge Ball will require a lot of those same techniques.

**GUERRILLA WAR**
This popular military game by SNK appears to follow the storyline of the arcade version pretty closely with its theme of revolutionaries overthrowing a dictatorship.

**THUNDER CADE**
Though the release of this American Sammy project is reported to be far away, we understand that it still has the double motorcycle assault as in the arcade.

**GOSSIP**
Both of these packs from Gametek are junior versions of their previous offerings, aimed at teens and younger players. Word has it they use a new program technique to help avoid the repetition of boards and questions, and offer a more random selection.

**STEALTH EAGLE**
Big news. This will be the first flight simulator made for the NES. From what we hear, it should send Activision flying high.
PINBALL ALLEY

Before video arcades, there were Pinball machines. A few years back, Nintendo introduced an NES version of Pinball. Now all of you Pinball wizards will have to make room as three new Pinball Game Paks (including one from Nintendo) are heading your way. Personally, we've always "tilted" toward a good game of Pinball...

PINBOT

Nintendo's new entry is programmed by those whizzes at Rare and looks exactly like the arcade Pinball game by Williams. It has a realistic looking perspective of the pinball table and a cool partial verticle scroll. Like the arcade, Pinbot talks to you, but we especially liked the little space slug that tries to eat your ball. Look for its 4-player, tilt capability, digitized sound and radical graphic features.

ROLLERBALL

This one has two types of games. In the skyscraper mode, you'll be able to play a regular Pinball game which offers several levels to its "table," and includes four-player capability. In the Match mode, which allows for two-player simultaneous play, you and your opponent start with a given number of points and loose them every time a ball gets past you. It's not always easy as there is more than one ball at all times.

SUPER SUSHI PINBALL

Don't let the name throw you. Other than a brief sushi history lesson at the beginning of the game, this game has nothing to do with fish. This one only has two levels to its table, but the B Button will allow you to bump the table to give your ball a little more bounce. But you'll have to watch it. Bump it too much and you'll tilt the game and loose your ball.

Gossip

In the NES Journal of our first issue of Nintendo Power, we told you about Dragonquest III. Well, the American version of the original game which inspired it and its sequel Dragonquest II. The Japanese version was the first "role-playing" video game to become a mega hit. E.T.A. is still a ways off.

MONSTER PARTY

It's by Bandai and it could best be described as a cross between Super Mario Bros. and Castlevania. Cute funny little characters in a haunted house-type mission. It has a good play feel and lots of drippy eyeball monsters.

MARCH / APRIL 1989
GOSSIP GALORE

At press time, we’d just come back from the Consumer Electronics Show and so we’re pretty much buried under tons of information. Next issue’s PAK WATCH promises to be especially exciting and informative. These games really aren’t due for release for quite a while, but we knew you’d be interested so we thought we’d toss you a few fastballs.

GODZILLA

Somehow we always knew someone would come up with a game based on Godzilla and the people at Toho, our newest licensee, are the first.

GOAL

We know that soccer fans have been clamoring for a new soccer game and Jaleco is planning to come through with this Pak that will emphasize complex play and technical soccer.

VEGAS DREAM

HAL is gambling that this Game Pak about playing in the Las Vegas casinos will be a hit. We’ve seen a bit of this one and there’s even a little role playing involved.

ADVENTURE OF LOLO

Intriguing little adventure game by HAL. It has a challenging “puzzle room” aspect that some will really enjoy.

FISHER-PRICE

Good news for the wee Power Players in the family. GameTek has announced that they are working on some Fisher-Price games for the younger set.

KUNG FU HERO

More Kung Fu weirdness from Culture Brain, the people who brought you Flying Dragon. This one isn’t as serious in theme, however, with its little marshmallowy heroes.

CALIFORNIA RAISINS

Why are we not surprised. These little guys are everywhere else, why not in a Game Pak from Capcom. Makes sense.

GRUMBLE, GRUMBLE DEPT.

We always strive to bring you the latest and most accurate information. We told you about these games in previous issues, they were scheduled to be released relatively soon. But things don’t always go quite as planned and there are always changes in this business. It goes with the video game territory. Anyway, we are blowing the whistle to alert you to the . . .

GUARANTEED HOT

Look for this bright gold seal on all Nintendo approved game parts and accessories for the NES. If it’s not there, it’s not backed by Nintendo. This seal is our pledge of top quality and your guarantee of hot-hot-hot entertainment.
Our goal is to try and preserve classic videogame magazines from years gone by before they are lost forever.

Thanks goes out to all the people who make this possible. From the original editors and writers, to everyone involved in acquiring and digitizing these magazines.

People interested in helping us out, in whatever way possible. Either by donating classic magazines, scanning, editing or distributing them, visit us at http://www.retromags.com

We are only interested in preserving classic magazines that are at least 5 years out of print.

We have no desire or Intention to profit from these in any way. So please, if you come across people trying to sell these releases, don't support them!

Thank You and ENJOY!
